“ *Mr. Lawson was not only my biology teacher, but he was also a mentor. While I didn't follow in his science footsteps, I did become a teacher - finishing year 27. I've shared many Mr. Lawson stories with my students over the years - being chased around the room with a box full of snakes, being on the receiving end of a "flying" frog, being his lab assistant instead of going to study hall... I hope that I've inspired my students as he inspired me. Rest in peace, Mr. L.*

“ *Mr. Lawson was one of my favorite teachers. One of my favorite memories was when he brought in a premature calf for my class to dissect. I can still see him throwing the eyeball around the room like a superball. He inspired me want to know more., inspect more, and respect all creatures. I wish I had done as he suggested anf.gone to OSU and become a doctor.*
