“ Remember Ralph from when we lived in New Harrisburg, he always had an easy smile and was simply a likable guy, he was also a baseball pitcher for high school, at least I thought he was. He was 6 years older than me and ask if I would catch some for him to practice, of course I agreed and got behind the plate to catch. I think I lasted 2 or 3 pitches, I was convinced he was throwing them a 100 mile an hour, hand hurt for several days. We met later in life and he always was quick to smile, he was a good guy. My prayers to all his family. Jim Swain
